

BLACK SWAMP HOSTA AND DAYLILY SOCIETY

The society meets throughout the year principally at the Toledo Botanical Garden, 5403 Elmer Drive, Toledo, OH. Membership is \$10 per garden per calendar year. Programs vary from well-known speakers, members of our society, bus tours, gardening topics to sales of rare and valuable specimens. We have tours of members' gardens, potlucks, and a winter luncheon at a local restaurant. During the summer, we hold either a hosta show (odd years) or a daylily expo (even years) to share our love for these cultivars with the public. The BSHDS maintains national display gardens that we helped develop at Toledo Botanical Garden, at 577 Foundation in Perrysburg, OH and the Hosta Glen at Simpson Garden Park in Bowling Green, OH. Our library project continues to provide newly released books on hostas and daylilies to 16 area libraries. We are affiliated with the daylily and hosta national societies and urge our 100+ members to join both national societies.
