Why Are the Hostas on the Other Side of the Fence Always Bigger and Greener? – Nutrition
The World of Hostas and Hosta Flowers
Landscaping from my perspective
Hosta Production at Walters Gardens- From Tube to Truck-propagation of hostas in tissue culture and large scale mechanized field operations and steps involved
Plant Patents and Intellectual Property

PROFILE

CH says he has never killed a hosta plant, although many in his care have up and committed suicide, as hard as he has tried to keep them alive.

In 1980 CH began doing tissue culture of hostas and other perennials at Walters Gardens and took over the management when Mark Zilis left to form Q&Z Nursery. CH managed the tissue culture lab producing over one million perennials per year until taking on other responsibilities of hybridizing, licensing and plant patents. Currently concentrating on licensing contracts, royalties, plant patents and plant breeder's rights. Graduated with a Bachelor's in Science from the University of Illinois in Ornamental Horticulture.

In Hosta groups CH served a number of positions in the Michigan Hosta Society including: Charter Vice President, President. In AHS, Master Show Judge, Scientific Chair, Scientific Editor, Journal author, Organized the first several AHS Research Grants, Auction Chair, Strategic Planning Chair, Vice President, President and honored with the Alex J. Summers Distinguished Merit Award.

Hybridizing Hostas (basics of hybridizing hostas)
Custom presentations can be made as well.

PROFILE

Ron Livingston is a retired Science teacher, and worked as an adjunct professor at Lawrence Technological University in Southfield, MI teaching classes in Heredity and Plant Sciences. Operation Physics instructor at LTU. Ron has been hybridizing hostas since 1997. Together with Brian Skaggs they founded the Fraternal order of Seedy Fellows (FOOSF). For Ron, a hobby often leads to a new hobby, hosta hybridizing led to photography, which led to rugged hiking, the process is ongoing. It is exciting to see what happens next.

How to create a garden by an amateur gardener
Hostas, nice foliage plants
Hostas for collectors
Daylillies and all their differences

Iris, the rainbow flower
Montreal botanical Garden thru all seasons
Hostas grow them as per species habits
Gardening to attract birds

PROFILE

Reggie Millette's hosta enthusiasm in his very visited garden led to founding the Quebec Hostas and Hemerocallis Society in 2000. In his garden he grows over 700 different hostas. In 2003 he wrote the very first book on hostas in French. This book became a best seller with 16000 copies. This first book was followed by a book on daylilies and a third one on irises. A new book followed on hostas in 2014,

in French, also in an English version. The new book *Hostas- Grow your Hostas as per species habits* is now available on his website <http://www.millettegardenpictures.com>. Reggie was the host of a radio show on gardening for 350 weeks. Reggie takes many pictures now sold through www.millettephotomedia.com and writes articles in many gardening magazines. He gives many conferences all over Quebec, France and United States

PROFILE

Rob Mortko is a retired chemical engineer. He spent 25 years with Black & Vetch in Kansas City where he was Vice President of Process Technology. His passion for shade gardening and hostas has grown over the past 35+ years since he and his wife Sheri moved into their shaded woodland home in Olathe, Kansas.

Their shade gardens have been featured on various public garden tours, on local TV, and in "Kansas City Homes and Gardens Magazine". For 20 years Rob operated Made in the Shade Gardens- a retail and mail order hosta specialty nursery. Rob is now devoted full time to Made in the Shade Tissue Culture – a plant tissue culture laboratory specializing in hosta population.

In 2000 Rob registered and introduced his first hosta cultivar 'Heart and Soul'. His hosta introductions include 'Stitch in Time', 'Mouse Capades', 'Rising Star' and 'Cary on'. In 2019 'Stitch in Time' was awarded Honorable Mention in its first year of competition towards the AHS Benedict Medal Award

Rob is a frequent speaker at hosta clubs and gardening groups across the country. He is a Johnson County Kansas Extension Master Gardener where he is also served on the Advisory Board. He has also served on the Executive Board of the American Hosta Society, on the board of the American Hosta Growers Association, and as a Contributing Editor for The Hosta Journal.

Rob co-chaired the 2017 Midwest Regional Hosta Convention in Lenexa, Kansas. Along with his fellow Johnson County Master Gardeners they hosted "Hostas in the Land of Ahhs".

PROFILE

Bob Solberg is the owner of Green Hill Farm, specializing in new hostas for over 35 years. Bob being a top-notch hybridizer, has introduced about 100 hostas, and is in pursuit of producing hostas with red in the petioles, scapes, and leaves, like his 'First Blush'^{PPAF}. He is co-founder and longtime Executive Secretary of the American Hosta Growers Association and developed the Hosta of the Year Program. In graduate school he studied mosses. Bob writes and edits *The Green Hill Gossip* a popular newspaper/catalogue on all subjects hostas as well as the twice-yearly newsletter *The Gossip Jr.* Bob is the recipient of the Alex J. Summers Distinguished Merit Award and Eunice Fisher Distinguished Hybridizer Merit Award from the American Hosta Society.

What's New in the Hosta World

Accessible Gardening

PROFILE

What began, as Josh's own little corner of the vegetable garden, blossomed into an interest in plants that grew throughout childhood. He graduated with an AAS degree in Horticulture and owns In The Country Garden & Gifts with his mother, Sue. Since 1998, In The Country has been dedicated to specializing in innovative hostas, choice perennials, water plants, succulents, and dwarf conifers. Being in a wheelchair creates obvious obstacles in the garden, but with a little creativity, a lot of determination, and much help and support from family and friends, physical limitations don't get in the way.

Josh wrote a column entitled "Enabled Gardening" for Pond & Garden magazine and regularly contributes articles and photos to the American Hosta Society's The Hosta Journal. Josh currently serves as Web editor-in-Chief on the Board of Directors for the American Hosta Society, is an Associated Editor for The Hosta Journal, and has served on the Board of Directors of the American Hosta Growers Association.

Josh is a long-time member of the Eastern Iowa Pond Society and is an occasional contributor to their monthly newsletter, as well as the club's Webmaster. Josh speaks frequently on Hostas, water gardening, water plants, shade gardening, succulents, and accessible gardening to garden and pond clubs, Master Gardener groups, and other gardening groups and events.
